

PLAN DYSTROPHY DRIVE . . . John J. Preis, president, L.A. County Chapter, and County Campaign Chairman, actress Bettye Ackerman, meet on the Ben Casey TV set to discuss plans for the 1964 fund-raising drive to be held by Muscular Dystrophy Associations of America, Inc. Drive starts countywide December 1, continuing through the month of December.

### TV Doctor to Head Dystrophy Campaign

Actress Bettye Ackerman has been named as 1964 Campaign Chairman for Muscular Dystrophy Associations of America, Inc. Announcement was made this week by John J. Preis, president of the L.A. County Chapter. Miss Ackerman who stars as "Dr. Maggie Graham" of Ben Casey TV series, is serving her second year as campaign chairman.

"Miss Ackerman is a dedicated, informed volunteer," Preis said when he made the announcement. "She did such an outstanding job in 1963 that we have again asked her to spearhead the thousands of volunteers who will be making the appeal for funds in cities and communities throughout L. A. County," he said.

The drive for funds to aid those afflicted with muscular dystrophy and allied muscle disorders afflicting millions, will start Dec. 1, continuing through the month of December. The March Against Muscular Dystrophy will be held locally Dec. 1 through Sunday, Dec. 6.

"The great tragedy of dys-

trophy is that children are its chief victims," Preis said. "Stricken almost before they have begun to live, their only future increasing helplessness and an early death, they underline the urgency of the problem which must be solved by medical science. MDA's dedicated objective is the conquest of this dread, fatal disease."

One reason MDA holds a separate fund-raising drive is to provide the necessary funds to enable medical science to continue vital research work until a cure and treatment are found to help these children and all future generations.

Funds raised locally will help support five local research projects at UCLA under MDA grants; three MDA clinics located at Orthopaedic Hospital, Casa Colina Rehabilitation Center and Valley Presbyterian Hospital. The L.A. County Chapter, with the largest patient service program in the country, has allocated \$116,655 for local clinic and patient services during 1964.

### NROTC PROGRAM

#### Navy Offers College Training and Career

More than 2,000 young men will enter universities or colleges next September with their education subsidized for the next four years.

That includes tuition, all books, incidental fees, uniforms and \$50 a month at a school of their choice. And an annual six-weeks summer cruise with pay.

It's all part of the Regular Naval Reserve Officers Training Corps Program leading to a career in the Navy or Marine Corps. At the end of their academic careers, qualified graduates are commissioned as officers in the Regular Navy or Marine Corps.

ALL THAT is required for the moment, however, an Eleventh Naval District spokesman has announced, is an application to take the Navy College Aptitude Test, which will be given Dec. 12. Applications, however, must be submitted by midnight, Nov. 20, to the Naval Exam-

ining Section, Science Research Associates, Inc., 519 W. Sheridan Road, McHenry, Ill., 60050.

Forms are available at high schools, colleges and universities, from commanding officers of NROTC units and at Navy recruiting stations.

A SPOKESMAN emphasized there is no obligation in taking the examination. Any high school senior or graduate who can finish college before age 25 is eligible for the program. That includes students at junior or state colleges.

Other requirements provide that the applicant be a U.S. citizen, age 17 by June 30, 1965; unmarried, without previous marriage, and that he meet physical standards prescribed for midshipmen.

Students appointed to the Regular NROTC lead approximately the same life as other collegians.

THEY MAKE their own arrangements for board and lodging, undertake normal studies leading to a bachelor's degree, and may pursue extracurricular activities such as athletics, that don't interfere with naval science requirements.

They must, however, take 24 semester hours of naval science courses in addition to their regular program and participate in scheduled drills and summer cruises. They are also subject to naval discipline while under naval jurisdiction.

Graduates are commissioned as regular officers either in the line or one of the staff corps, or as second lieutenants in the Marine Corps, and must serve four years of active duty.

### Dog Club to Graduate Two Novice Sets

Graduation of two Harbor Lite Dog Obedience Club novice classes will be held at Peck Park, 560 N. Western, San Pedro, today at 7 p.m. and Saturday at 2 p.m.

Handlers and dogs will be judged by the point system, with 200 points indicating a perfect score. Trophies will be awarded top performers.

Registration for two upcoming novice classes will be held by the club Nov. 25 at 7 p.m. and Nov. 28 at 2 p.m. at Peck Park. Marty Lehr will serve as instructor.

PRICES EFFECTIVE NOV. 18, 19, 20, 21 & 22 WED., THURS., FRI., SAT. AND SUN.
